Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

INDEX OF ECOLOGY, VOLUME I

Abundance of the mosquito-destroying top-minnow, Gambusia affinis, especially in relation to male frequency, 53
Abstracts, zoological, 230
Acidity, soil in relation to plants and insects, 193
Adaptation in Douglas Fir, 127
Allen, W. E., articles, 84, 215, 26
Altitude, moisture and, as factors in determining the seasonal activities of the Townsend ground squirrel in Washington, 189
Anson, B. J., article, 53
"Ant Gardens" of British Guiana, a new case of parabiosis and the, 89
Arrhenius, O., article, 255
Atherine fresh-water fish Libidesthes sicculus, an ecological study of the life-history of, 262

Barney, R. L., article, 53
Baker, F. C., article, 277
Barberry, observations on the dissemination of, 211
Billbugs, notes on the food plants and distribution of, 198
Bird, Henry, article, 193
Braun, E. Lucy, article, 161
British Guiana, a new case of parabiosis and the "Ant Gardens" of, 89

Changes in the vegetation of Western Kentucky, 120
Cincinnati region, composition and source of the flora of, 161
Clements, Frederic E., article, 181
Climatic cycles, drouth periods and, 181
Cocklebur and its seeds, some points of interest concerning, 110
Conifers in the Wasatch Mountains of Utah, snowshoe rabbits and,

Dependence of the fishes on the diatoms, 79
Differential death rate in Gambusia, notes on the, 220
Dissemination of the barberry, observations on the, 211
Distribution of certain billbugs, notes on the food plants and, 198
Douglas Fir, adaptation in, 127
Douglas Fir in semi-arid regions of the Northwest, factors controlling the distribution of, 282
Drouth periods and climatic cycles, 181
Dust of the Gobi, 21
Dust of the upper air, 104

Earthworms, influence of soil reaction on, 255
Ecological study of the life-history of the fresh-water atherine fish Libidesthes sicculus, 262
Ecological studies in the Stockholm Cays, 223
Ecology, a new attack on the problems of, review, 145
Ecology, human, review, 228
Ecology, problems of marine, 84
Ecology, the importance of, in the interpretation of fossil faunas, 277
Ecological relations of the Polar Eskimo, 132
Effect of a late spring frost upon forest vegetation in the Wasatch Mountains of Utah, 47
Ekblaw, W. E., article, 132
Evergreenness in the Puget Sound region, some factors in, 37

Fetherolf, N. J., article, 304
Fishes on the diatoms, the dependence of, 79
Flora of the Cincinnati region, composition and source of, 161
Floral dominance in the open sea, problems of, 26
Food plants and distribution of certain billbugs, notes on, 198
Forest vegetation in the Wasatch Mountains of Utah, effects of a late spring frost upon, 47

Fossil faunas, the importance of ecology in the interpretation of, 277
Fresh-water atherine fish Libidesthes sicculus, an ecological study of the life-history of, 262

Gail, Floyd W., article, 282
Gambusia affinis, abundance of the mosquito-destroying top-minnow, especially in relation to male frequency, 53
Gambusia, notes on the differential death rate in, 220
Geiser, S. W., article, 220
Gerris remigis Say, distribution of, throughout a river system, 33
Gobi, dust of, 21

Haasis, Ferdinand W., article, 292
Habitats, the reaction of plants to new, 1
Hansen, Albert A., article, 125
Hofmann, J. V., article, 127
Hubbs, Carl L., article, 262
Human ecology, 228

Insects and plants, soil acidity in relation to, 193
Investigation of ocean pasturage, 215

Kentucky, some changes in the vegetation of Western, 120
Kern, Frank D., article, 211
Korstian, Clarence F., articles, 47, 304
Life-history of the fresh-water atherine fish Libidesthes sicculus, an ecological study of, 262

McHargue, J. S., article, 110
Mann, Albert, article, 79
Marine ecology, problems of, 84
Michael, E. L., article, 84
Michael, Ellis L., and his scientific work, 70
Moore, Barrington, article, 258
Mosquito-destroying top-minnow, Gambusia affinis, especially in relation to male frequency, abundance of, 53

New habitats, the reaction of plants to, 1
Notes and comment, 76, 150, 232, 316

Observations on the dissemination of the barberry, 211
Ocean pasturage, the investigation of, 215
Open sea, problems of floral dominance in, 26

Parabiosis and the "Ant Gardens" of British Guiana, a new case of, 89
Plant composition and soil acidity of a Maine bog, 258
Plants and insects, soil acidity in relation to, 193
Plants, the reaction of, to new habitats, 1
Polar Eskimo, the ecological relations of, 132
Problems of ecology, a new attack on, 145
Problems of floral dominance in the open sea, 26
Problems of marine ecology, 84
Proceedings, 155

Reaction of plants to new habitats, 1
Red salmon, some of the factors controlling the migration and spawning of the Alaska, 235
Redway, Jacques W., articles, 21, 104, review, 228
Relations between soil type and root form of western yellow pine seedlings, 292
Reviews, 73, 145, 223, 228, 311
Rigg, George B., article, 37
Riley, C. F. Curtis, article, 33
Ritter, W. E., article, 70

Satterthwait, A. F., article, 198
Seasonal activities of the Townsend ground squirrel in Washington, moisture and altitude as factors in determining the, 189
Shaw, William T., article, 189
Shull, Charles A., article, 120
Snowshoe rabbits and conifers in the Wasatch Mountains of Utah, 304
Soil acidity of a Maine bog, plant composition and, 258
Soil acidity in relation to plants and insects, 193
Soil reaction, influence of, on earthworms, 255
Soil type and root form of western yellow pine seedlings, relations between, 292
Source of the flora of the Cincinnati region, composition and, 161
Spawning of the Alasks red salmon, some

of the factors controlling the migration and, 235
Spring frost, effects of, upon forest vegetation in the Wasatch Mountains, 47
Stockholm Cays, ecological studies in, review, 223

Taylor, Norman, article, 258
Taylor, Walter P., review, 311
Terminology of the ultimate vegetation, 125
Townsend ground squirrel in Washington, moisture and altitude as factors in determining the seasonal activities of, 189
Top-minnow, Gambusia affinis, abundance of, especially in relation to male frequency, 53

Ultimate vegetation, the terminology of, 125
Upper air, the dust of, 104
Utah, snowshoe rabbits and conifers in the Wasatch Mountains of, 304
Utah, effect of a late spring frost upon forest vegetation in the Wasatch Mountains of, 47

Vegetation, the terminology of the ultimate, 125
Vegetation of Western Kentucky, some changes in, 120

Waller, A. E., review, 145
Ward, Henry B., article, 235
Water-strider Gerris remigis Say, distribution of, throughout a river system, 33
Western yellow pine seedlings, relations between soil type and root form of, 292
Western Kentucky, some changes in the vegetation of, 120
Wheeler, W. M., article, 89
Wherry, E. T., review, 223

Zoological abstracts, 230, 314
